

FACT

OPINION

1) All the mindless messages we send to each other on a daily basis create a false sense of closeness.

2) The text message, the email, the instant message—they're all quick ways for us to contact each other.

3) People should email less and handwrite more.

4) Social networking sites are a waste of time.

5) People are able to instantly communicate their thoughts on things from a long checkout line in front of them to breaking news events.

6) Technology has changed our lives.

7) The Internet is the most useful tool that exists today.

8) Service providers can use texts to notify cell phone users about promotions and payment due dates.
