

# 2018 Edmentum Summer Academic Sprints

## Our school is participating in the Summer Study Island Contest!

Our school is participating in Edmentum's Academic Sprints Study Island questions contest this summer. We can help our students fight summer learning loss while they compete for great prizes with Study Island users across the nation. The contest runs from 6.4.2018 – 8.17.2018.

## Students can win a Kindle Fire HD8 tablet for themselves and a \$150 pizza party for our school.

There will be 5 total winners chosen based on the following criteria:

- The student from each grade span (K-5, 6-8, 9-12) with the highest number of questions answered correctly and an overall percentage correct of at least 60% will be a winner.
- Two students will be selected at random from those who answer at least 20 questions correctly each week for at least 8 of the 11 weeks of the contest period and also have an overall percentage correct of at least 60%.

## Encourage your students to participate!

- Challenge your students to practice in Study Island all summer long so that they will have a chance to win.
- Make sure your students are registered in Study Island, and send the parent flyer, complete with each student's login credentials, home with your students.
