# AGENDA

- SMART Goals
- Custom Reports & Sharing
- Teacher Lens
- Student & Home Lens
- Administrator Lens
- D & C's Top Picks
- Q&A

# SMART Goals

---

*- Attain Graduation Rate  
growth of 2.5% by end of  
school for 20-21 school year.*

*- Share weekly, student status reports  
(progress and proficiency) to Family and  
Home Contacts over the first 2 Six  
Weeks grading periods.*

*- Achieve Competency Rate of 95%  
of all, Essential 6th Grade Math  
Standards, by students in the 20-21  
school year, per Curriculum Reports*

# Creating New Courseware Reports

---

## Explaining the “create new report” process:

- Weekly Progress Report
- Gradebook Report
- Course Progress Report

## Example use cases:

- Virtual Academy Monitoring / Program Oversight / Unit Recovery
- Cohort Monitoring
- Non-graded Curriculum

# Enable Family Controls

Admin Center > Settings > Courseware Reporting Options

**Administration Center**

Reports Users ▾ Programs Gradebook ▾ Settings ▾

## Courseware Reporting Options

Courseware reporting options can be applied at the account level and at a program level. Each program can follow either the account-level or program-specific permissions.

**Account** Program

### Account: Courseware Reporting Options

Sharing reports with student contacts

- ☒ Allow account administrators to share Courseware reports with student contacts.
- ☒ Allow program administrators to share Courseware reports with student contacts.
- ☒ Allow instructors to share Courseware reports with student contacts.

Save Changes

Educators have the option to select and add contacts to the report(s) in the reporting wizard; contacts must exist as part of student profile data as registered through Family Sensei.

# Teacher Lens

## Course Module Mastery Report

This report provides information about the modules mastered by learners for a particular class.

## Graphic Learner Progress Report

This report allows you to see the progress of a learner in a class as a graphical progress bar.

## Test Progress Report

This report provides educators with a snapshot of how learners in a class are performing on tests for a Courseware assignment.

## Class Usage Summary Report

This report gives instructors and administrators information about how learners are spending their time in Courseware at a class level.

## Learner Daily Usage Report

This report allows instructors to monitor the time a student has spent in their Courseware activities.

## Courseware Audit Report

This report allows instructors to monitor learners' course completion data.

## Detailed Score Report

This report provides mastery test and posttest scores for multiple learners in a class.

## Learner Progress Report

This report provides information on the completion status of every lesson and its related mastery test for a learner.

## Strengths and Needs by Class Report

This report helps identify specific areas of strength and weakness for a class as a whole and for individual students, based on a single test.

## Learner Portfolio Report

This report provides information about all assignments and assessments the learner has ever performed within this product.

## Item Response by Class Report

This report will show learner(s) responses for a selected test within an assigned course.
