

Fall 2019 Exact Path Skills Challenge

Start earning trophies and showing skills mastery to earn prizes!

From Tuesday, October 1st - Friday, November 8th, our school is competing against other schools across the country to become the Exact Path Skills Champion!

- **3 SCHOOL WINNERS:** The top elementary, middle, and high school with the highest number of Exact Path skills mastered per active students will be awarded a school trophy, \$300 pizza party, and \$300 for school supplies each.
- **3 STUDENT WINNERS:** The top performing student at the elementary, middle, and high school level with the highest total number of Exact Path skills mastered will win a trophy and a \$100 Target gift card each.

How to WIN!

1. Make sure **all of your students have active learning paths in Exact Path**. If they don't, administer the diagnostic, update data from one of our assessment partners, or auto-generate a learning path to set students on a path toward success!
2. Encourage students to complete lessons and earn their very best score on their Progress Check, the assessment that follows each set skills. **Progress Check scores are what determine if a skill has been mastered**, and students earn a Trophy for each mastered skill.
3. Encourage students to **track their progress** by reviewing their Trophies. As an educator, run a **Learning Path Progress report** for the duration of the contest to see how many skills students have mastered.
