

South Carolina Exact Path Skills Challenge 2019

Start earning trophies and showing skills mastery to earn prizes!

This April and May, compete against other schools across South Carolina to become the Exact Path Skills Champion for the month!

For each of the next two months, the school with the highest number of Exact Path skills mastered per student using the program will win bragging rights, a school trophy, and a \$200 pizza party!

How to WIN!

1. Make sure all of your students have active learning paths in Exact Path. If they don't, administer the diagnostic, update data from one of our assessment partners, or auto-generate a learning path to set students on a path toward success!
2. Encourage students to complete lessons and earn their very best score on their Progress Check, the assessment that follows each set skills. Progress Check scores are what determine if a skill has been mastered, and students earn a Trophy for each mastered skill.
3. Encourage students to track their progress by reviewing their Trophies. As an educator, run a Learning Path Progress report for the duration of the contest to see how many skills students have mastered.
4. Become a winner! One school winner will be named each month – April and May!

EXACT PATH
SKILLS CHALLENGE

Register your school today to get started!

Registration is open now through the end of May.

Go to <https://info.edmentum.com/2019-SC-XP-Skills-Challenge.html> to register, see official rules, and FAQs!
