

South Carolina Exact Path Skills Challenge 2019

Our school is participating in the Exact Path Skills Challenge!

This April and May, we will be competing against other schools across South Carolina to become the Exact Path Skills Champion for the month! Each of the two months, the school with the highest number of Exact Path skills mastered per student using the program will win bragging rights, a school trophy, and a \$200 pizza party!

How we will WIN!

1. Students will be encouraged to work in their Exact Path learning paths to fill skill gaps and propel learning forward!
2. When students complete lessons successfully and earn their very best score on their Progress Check, the assessment that follows each set skills, they will master a skill and earn a Trophy!
3. Students can track their progress by reviewing their Trophies in their account.
4. Become a winner! One school winner will be named each month – April and May!

EXACT PATH
SKILLS CHALLENGE
