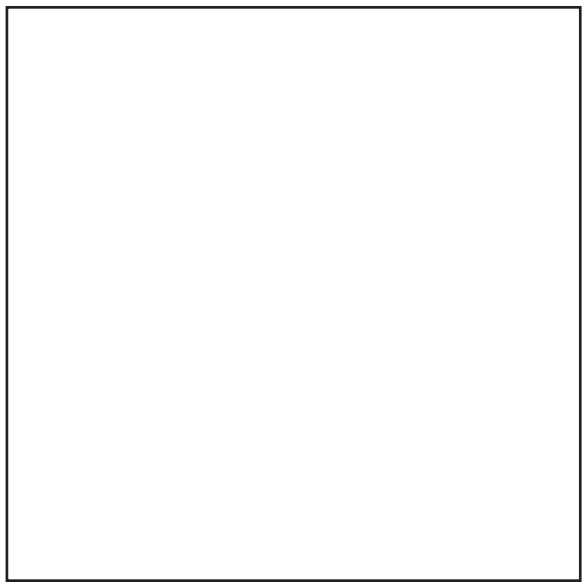
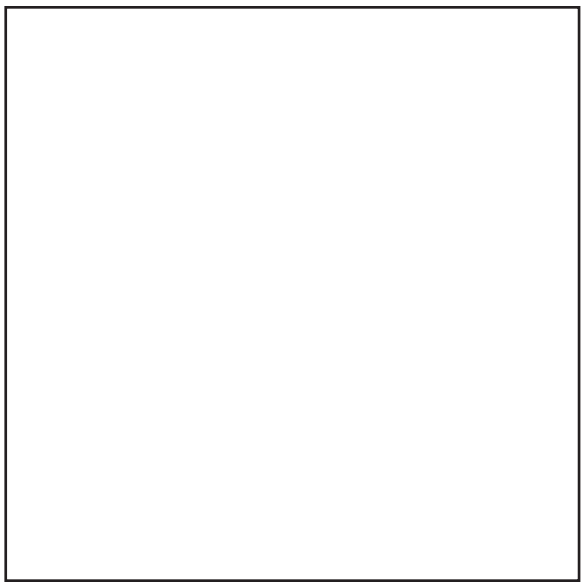
Printing Instructions

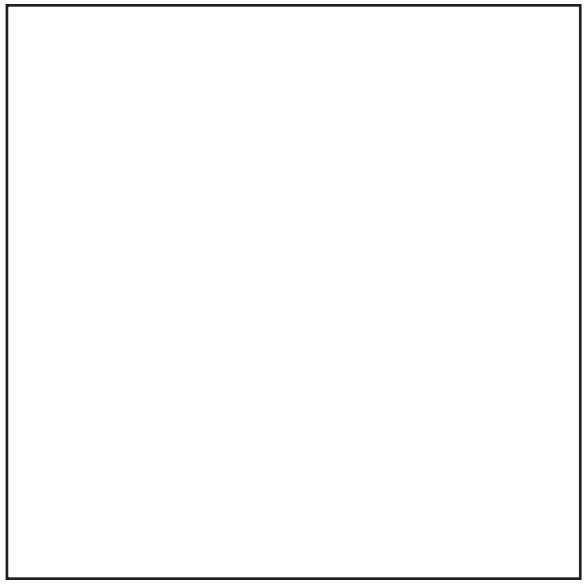
STICKY NOTES

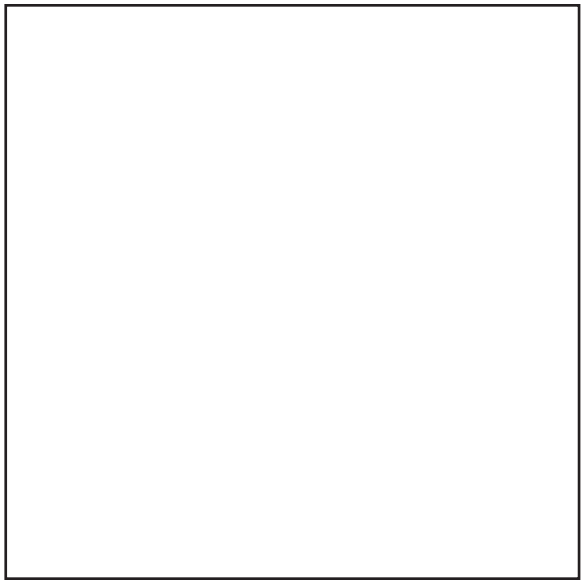
6 easy steps to print the perfect sticky notes:

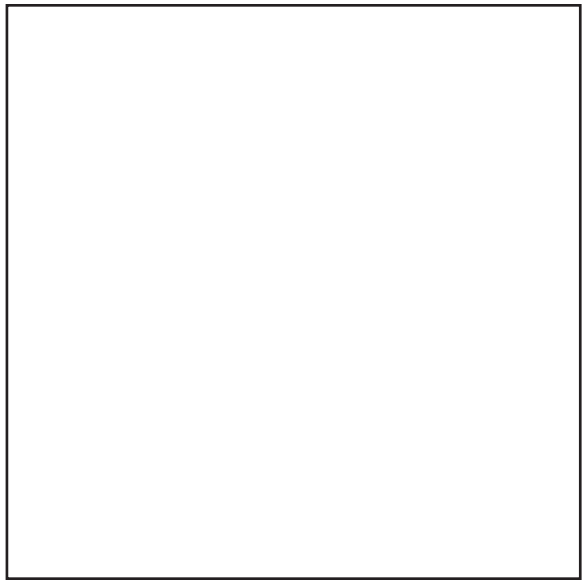
- Print the blank printing guide.
- Grab your favorite 3x3 sticky notes.
- Line up the sticky notes on the blank guide with the sticky side at the top.
- Arrows on the guide should be pointing upward
- Make sure you have your printer settings to print full size so the guide and the artwork line up.
- Place the guide with sticky notes in printer so that the arrows go through the printer first and run through printer!

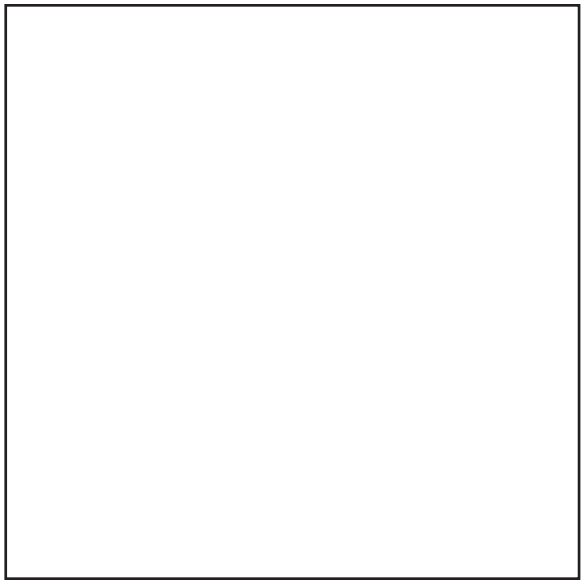












Awesome Work!
