

2019 Edmentum Summer Academic Sprints

Our school is participating in the Summer Study Island Contest!

Our school is participating in Edmentum's Study Island Academic Sprints contest this summer. You can help your student fight summer learning loss while they compete with other Study Island users for some great prizes!

- The contest runs from May 26, 2019 – Aug. 17, 2019
- Encourage your students to work in Study Island consistently throughout the summer, answering as many questions correctly as possible while maintaining a 60% correct average.

There Will be Winners for Most Questions Correct and Consistent Usage!

Your child has a chance to win a Kindle Fire HD8 tablet for themselves and a \$150 pizza party for their school for getting the most questions correct or by being randomly selecting from students who answer at least 20 questions correctly per week for at least 9 of the 12 weeks of the contest period.

Fight Summer Learning Loss!

Students can lose from one to three months in math and reading skills over the summer. You can minimize summer learning loss by encouraging your student to learn and practice with Study Island while school is out.

Access Study Island from Anywhere!

Study Island is completely web-based so your student can access the same Study Island account they use at school from any computer or mobile device with an internet connection. To access Study Island go to: app.studyisland.com/cfw/login/
